« Skin barrier function : Cutaneous
absorption and environmental factors »

LYON 01A

COMMENTAIRES :

Expert n°1 :

Excellent projet
Beau sujet
Liste de partenaires impressionnante.

Expert n°2 :

IP original et novateur.
Cette proposition fait preuve d'un grand professionnalisme et d'un véritable souci du
détail.

Excellent project
Attractive Thema
Many partners
Original and really new
Very professional

RECOMMANDATION AU CANDIDAT :

Expert n°1 :

Bonne réussite pour votre projet !
Bonne chance également pour la gestion des relations avec un aussi grand nombre de
partenaires!
Peut-être peut-on imaginer, en plus, d'autres moyens que les sites Web pour la diffusion
du programme...

Expert n°2 :

Il s'agira de réaliser ce qui est prévu en évitant la lourdeur des procédures.
Il sera opportun de veiller à une diffusion équilibrée des résultats - en particulier chez
les partenaires industriels.

Good luck for
realisation
Large diffusion is
recommended

NOTE : 9

New Erasmus IP

Application in April 2007...

Course

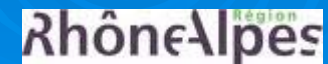

16 September - 2 October 2007

The poster features logos for CNRS, Université Claude Bernard Lyon 1, and ISPB. The title is "European Intensive Program - Galenos Course" followed by "SKIN BARRIER FUNCTION" and the subtitle "Cutaneous Absorption and Environmental Factors". A colorful illustration of skin layers is shown. It mentions financial support from the European Lifelong Learning Program/Erasmus Intensive Program IP-28256-CUE-07 and lists various partner universities. It also states the course is included in several master and PhD programs. Contact information for Pr Françoise FALSON is provided at the bottom.

Congratulations and Many thanks
to all the partners of the IP
who make it a reality

Menu of the IP

Courses

Session I: Skin Barrier Functions (lectures)

Session II : Skin Absorption (lectures)

Session III: Environnemental Factors (lectures)

Session IV : Modulation of Skin Barrier Functions (lectures)

**Session V : Short communications of research project
presented by Galenos Students**

Session VI : Laboratory sessions

Students Evaluation

Final Examination: 4 ECTS

Scientific communication: 2 ECTS

Social events

UCBL Welcome reception

Dinner in Vieux Lyon

***Discovering French culture : Musée des Frères Lumière, Tour in
Beaujolais, Biennale d'Art Moderne / Biennale de la Danse***

IP 2007 Participants / Curriculum

37 Teachers : 26 University, 11 Industry

52 Students : 36 PhD , 16 Master M2R

Countries : 82% Europe (43)

18% Out of Europe : Vietnam (2), Chili (1), Colombia (1),
Tunisia (1), Algerian (1), Egypt (2), China (1)

IP included in Masters and PhD degree :

Master M2R Physiologie et Neurosciences, Lyon1 University

TU in Pharmacy,for Erasmus student

Euro-PhD in Advanced Drug Delivery, Galenos Network

European Master for Health Products, Lyon1 & Parma & Jena

IP evaluation by students

Quality and Quantity with appreciation index : Excellent, Good, Poor ?

	Excellent	Good	Poor
Lectures	28%	71%	1%
Laboratory	26%	61%	13%
Reasearch Communications	46%	46%	8%
Documents	22%	71%	7%

Would you recommend this IP to other students? 99% YES 1% I don't know

Would you participate to this IP as a speaker in the future? 72% YES 22% Maybe

Skin barrier function : Cutaneous absorption and environmental factors

student's point of view
