Disclaimer
This document is aimed at informing applicants for EU funding. It serves only as an example. The actual web forms and templates are provided in the Funding & Tenders Portal Submission System (and may contain certain differences). The applications (including annexes and supporting documents) must be prepared and submitted online via the Portal.
IMPORTANT NOTICE

What is the Application Form?
The Application Form is the template for EU grants applications; it must be submitted via the EU Funding & Tenders Portal before the call deadline.

The Form consists of 2 parts:
  • Part A contains structured administrative information
  • Part B is a narrative technical description of the project.

Part A is generated by the IT system. It is based on the information which you enter into the Portal Submission System screens.

Part B needs to be uploaded as PDF (+ annexes) in the Submission System. The templates to use are available there.

How to prepare and submit it?
The Application Form must be prepared by the consortium and submitted by a representative. Once submitted, you will receive a confirmation.

Character and page limits:
  • page limit normally 40 pages for calls for low value grants (60 000 or below); 70 pages for all other calls (unless otherwise provided for in the Call document/Programme Guide)
  • supporting documents can be provided as an annex and do not count towards the page limit
  • minimum font size — Arial 9 points
  • page size: A4
  • margins (top, bottom, left and right): at least 15 mm (not including headers & footers).

Please abide by the formatting rules. They are NOT a target! Keep your text as concise as possible. Do not use hyperlinks to show information that is an essential part of your application.

⚠️ If you attempt to upload an application that exceeds the specified limit, you will receive an automatic warning asking you to shorten and re-upload your application. For applications that are not shortened, the excess pages will be made invisible and thus disregarded by the evaluators.

⚠️ Please do NOT delete any instructions in the document. The overall page limit has been raised to ensure equal treatment of all applicants.
TECHNICAL DESCRIPTION (PART B)

Work plan

Provide a brief description of the overall structure of the work plan (list of work packages or graphical presentation (Pert chart or similar)).

Insert text

Section 4. “Work plan, work packages, timing and subcontracting”:

For EMDM which are low value grants, use a single work package for the entire action.

Show who is participating in each task: Coordinator (COO), and if applicable, Affiliated Entities (AE), Associated Partners (AP), the participating organisations (OTHER).

4.2 Work packages and activities

WORK PACKAGES

This section concerns a detailed description of the project activities.

Group your activities into work packages. A work package means a major sub-division of the project. For each work package, enter an objective (expected outcome) and list the activities, milestones and deliverables that belong to it. The grouping should be logical and guided by identifiable outputs.

Projects should normally have a minimum of 2 work packages. WP1 should cover the management and coordination activities (meetings, coordination, project monitoring and evaluation, financial management, progress reports, etc) and all the activities which are cross-cutting and therefore difficult to assign to another specific work package (do not try splitting these activities across different work packages). WP2 and further WPs should be used for the other project activities. You can create as many work packages as needed by copying WP1. The last WP should be dedicated to Impact and dissemination

For low value grants (less or equal to 60,000 EUR), it is possible to use a single work package for the entire project (WP1 with the project acronym as WP name).

Please refer to the Call Document/Programme Guide for specific requirements concerning the number and the typology of work packages.

⚠️ Enter each activity/milestone output/outcome/deliverable only once (under one work package).

#### Activities (what, how, where) and division of work

Provide a concise overview of the work (planned tasks). Be specific and give a short name and number for each task. Show who is participating in each task: Coordinator (COO), and if applicable Beneficiaries (BEN), Affiliated Entities (AE), Associated Partners (AP) and others, indicating in bold the task leader.

</tbody>

#### Milestones and deliverables (outputs/outcomes)

Milestones are control points in the project that help to chart progress. Use them only for major outputs in complicated projects. Otherwise leave the section on milestones empty. Means of verification are how you intend to prove that a milestone has been reached. If appropriate, you can also refer to indicators.
For low value grants (less or equal to 60,000 EUR), it is not necessary to include milestones.

**Deliverables** are project outputs which are submitted to show project progress (any format). Refer only to major outputs. Do not include minor sub-items, internal working papers, meeting minutes, etc. Limit the number of deliverables to max 10-15 for the entire project. You may be asked to further reduce the number during grant preparation.

For deliverables such as meetings, events, seminars, trainings, workshops, webinars, conferences, etc., enter each deliverable separately and provide the following in the 'Description' field: invitation, agenda, signed presence list, target group, number of estimated participants, duration of the event, report of the event, training material package, presentations, evaluation report, feedback questionnaire.

For deliverables such as manuals, toolkits, guides, reports, leaflets, brochures, training materials etc., add in the 'Description' field: format (electronic or printed), language(s), approximate number of pages and estimated number of copies of publications (if any).

For each deliverable you will have to indicate a due month by when you commit to upload it in the Portal. The due month of the deliverable cannot be outside the duration of the work package and must be in line with the timeline provided below. Month 1 marks the start of the project and all deadlines should be related to this starting date.

The labels used mean:

- **Public** — fully open (automatically posted online on the Project Results platforms)
- **Sensitive** — limited under the conditions of the Grant Agreement
- **EU classified** — RESTRICTED-UE/EU-RESTRICTED, CONFIDENTIAL-UE/EU-CONFIDENTIAL, SECRET-UE/EU-SECRET under Decision 2015/444.
