## Sustainable Livestock Production and Animal Welfare

Capacity  
Building in  
Higher  
Education

The project addresses the demand of educating professionals in Animal Breeding and Livestock Production on high quality and international standards. This contributes to knowledge based solutions for sustainable agriculture, animal welfare and to achievements in the livestock sector towards climate neutrality according to the European Green Deal 2050.

### Specific objectives

### Activities

Photo: by Milk and Farm magazine

Curricula modernization at four Agricultural Universities in Ukraine including the development of new study modules in
