Wissenschaftsforschung (DZHW)

Was verlangt der E+ Leitfaden ?

- When formulating project proposals, it is also recommended to consult the results produced by previously funded projects based on similar priorities, to ensure consistency and avoid duplications, as well as to progressively build on existent results and contribute to the joint development of the different fields. (p. 217)
- Selected projects will be expected to share the results of their activities at local, regional, national level and transnational level. (p. 226)
- Results should be re-usable, transferable, up-scalable and, if possible, have a strong transdisciplinary dimension. (p. 226)
- Link to EU policy and initiatives: the proposal [...] contributes to giving visibility to existing EU tools and initiatives for skills development. (p. 287, relevance)
- Synergies/complementary with other (EU and non-EU funded) activities that can build on the project results (p. 266, impact)

Mind the Gap!

Bedarf und Innovation des eigenen Vorhabens sind projektspezifisch herauszuarbeiten.

Is your Higher Education Institution prepared for future challenges?

HEInnovate is a self-reflection tool for Higher Education Institutions who wish to explore their innovative potential. It guides you through a process of identification, prioritisation and action planning in eight key areas. The self-assessment is available in all EU languages.

HEInnovate is not a benchmarking tool. It diagnoses areas of strengths and weaknesses, opens up discussion and debate on the entrepreneurial / innovative nature of your institution and it allows you to compare and contrast evolution over time. You can have instant access to your results, learning materials and a pool of experts. HEInnovate can be used by all types of higher education institutions.

HEInnovate is an initiative of the European Commission in partnership with the OECD. It is free, confidential and open to anyone to use. [Read more](#).

Being an entrepreneurial higher education institution depends upon individuals, and innovative ways of doing things.

Recognition Tools and Projects

ENICs and NARICs have developed projects, tools and instruments to facilitate recognition, foster mobility and enhance internationalisation of higher education.

The following is a list of tools and projects that can help credential evaluators to assess qualifications.

Automatic Recognition

- [AdReN - Automatic Recognition in the Adriatic Region](#) (EU-funded project with Croatia, Greece, Italy (coordinator) and Slovenia)
- [AR-Net - Automatic Recognition in the Networks](#). The third version of the EAR-HEI manual and its chapter on Automatic Recognition. (EU-funded project with Czech Republic, Denmark, Ireland, Italy, Lithuania, Netherlands (coordinator), Norway, Portugal and the United Kingdom)
- [DigiRec - Digital Student Data & Recognition](#) (EU-funded project with Canada, Estonia, France, Italy, Netherlands (coordinator), Norway, Poland, and Sweden)
- [EAR Manual: European Area of Recognition](#)
- [EAR HEI Manual: European Recognition Manual for Higher Education Institutions](#)

Horizon Results Platform – Making results matter!

Später ans... Teilen

Welcome to the Horizon Results Platform! Whether you are a policy-maker, an investor, an entrepreneur, a researcher, an innovation, legal, business development or financing expert, or any interested citizen, this is the place where you can discover the wealth of EU-funded research results and get in contact with their creators!

Can you play a role in **making their results matter**? Contact them now and find out more about their results, their needs and plans for the future, or form partnerships and invest in them!

Did you receive a Horizon 2020 or FP7 grant? Join us now!
