• Defining European Union studies

" European Union studies comprises the study of Europe in its entirety, with a particular emphasis on the EU dimension, from an internal but also from a global perspective "

Enhancing awareness of the European Union:

- **European citizenship** and values
- Role of the **EU in a globalised world**
- Facilitating future engagement as well as **people-to-people dialogue**.
- Vector of **public diplomacy in third countries**, promoting **EU values** and enhancing the visibility of the European Union
- Scope of EU studies may vary so long **as an EU angle is explored**.

JEAN MONNET ACTIONS IN OTHER FIELDS OF EDUCATION AND TRAINING

- TEACHER TRAINING
- LEARNING EU INITIATIVES

- Learning about the objectives and the functioning of the European Union is an important part of promoting active citizenship and the common values of freedom, tolerance and non-discrimination.
- Teachers and trainers are keen to engage in opportunities for their own professional development; a significant number of teachers express the need to expand their competences for developing an inclusive classroom atmosphere using Information and Communication Technologies (ICT), and teaching in multilingual and multicultural classrooms. They also need opportunities for professional expansion regarding the European dimension of teaching at school, in particular on teaching about the European Union in engaging ways.
- The overall objective is to promote a better understanding, both in general education and vocational training (ISCED 1 – 4), of the European Union and the functioning of its Institutions and to address the widespread lack of knowledge of the European Union and a lot of disinformation, these in turn increase people's disenchantment about the Union and its policies.

ONLY for: EU Member States or third countries associated to the Programme.

Teacher training

Higher Education Institutions or Teacher Training Institutes/Agencies will organise activities, enabling teachers in schools and Vocational Education and Training (VET) providers to develop new skills, to teach and engage on EU matters, thus empowering them through a better understanding of the EU and its functioning.

Teacher training bodies (both for initial teacher education and for continuous professional development for teachers) will strengthen their internal knowledge and skills on teaching about EU matters, and so teachers will be better equipped when introducing EU content in their activities.

Teacher Training activities will support educational staff in schools and VET providers (ISCED 1 – 4).

Aims:

- support schools and VET providers in planning, organising and delivering EU content in their curricular and extra-curricular activities.
- allow schools and VET providers (ISCED 1- 4) to build knowledge about the EU among their teaching staff;
- offer structured training proposals on EU subjects for schools and VET providers, provide content and methodologies for teacher teaching at various levels, from different backgrounds and experience;
- deliver specific individual or group training courses (modular, residential, blended or online) for teachers interested in the EU and willing to integrate EU subjects in their daily work;
- foster the confidence of teachers in integrating an EU angle in their daily work.

Teacher training

Some bullets points for lessons learnt:

- Teacher training is financed via customised lump sum (lump sum type 2); the preparation of the budget table requires a big effort; all the costs per category have to be identified and linked to the narrative part of the application.
- The activities of Teacher Training projects should also include support to participants (e.g. contribution to travel and subsistence, provision of handbooks and other specific tools, exemption from fees).
- Please read carefully the Programme Guide before preparing the application. Then, read the Programme Guide again before submitting your application.

Jean Monnet Policy Debate

The Networks in other fields of Education and Training

The activities will facilitate a common understanding on learning methodologies about European Union matters among practitioners working in different contexts, facing different challenges and constraints due the national legislations and the structure of the curricula.

AIM:

- The Jean Monnet **Networks** aim to offer support to schools & VETs, (ISCED 1 – 4), and/or higher education Institutions involved in Teacher Training /Education for boosting knowledge on how to teach European Union subjects, they will also give an international edge to the learning exercise.
- Teachers' exchange of knowledge (collaborative working on specific subjects and on methodologies, co-teaching experiences, common activities are the basis of the network activities. For example: Exchanging information on content and promoting results of methodologies applied;
- Enhancing cooperation between different schools/VETs (ISCED 1 – 4), teacher training /education providers giving them international experience and a European standing;
- Exchanging knowledge and mobility for co-teaching;
- Fostering cooperation and creating a solid and sustainable knowledge platform among schools & VETs (ISCED 1 – 4), and/or higher education Institutions involved in Teacher Training /Education.
